25X1A6a	was up to brief me on his recent trip to  25X1A6a
25X1A9a	4. Dr. of the Technical Services Staff were up to see me about "space." They want very much to r could move the units which are now in the This would cost about \$1,000,000. The idea may have real merit since as it stands now we will not be able to get the Technical Services Staff into the new building and this proposed arrangement would consolidate most, if not all, of TSS in one location. However, I explained to them that as a practical matter it might be extremely difficult to spend \$1,000,000 on the renovation of an old building at this time. Nevertheless, I agreed to have Jim Garrison and his engineers make an estimate of the situation and to speak to the Director about it. In the course of our conversation we also discussed the possibility of moving their from its present location on \$5X1A.
25X1A6a	said that he had never
25X1A9a	objected to this but that the Office of Security had ruled it out. I want to explore it again with Shef. I don't really see the overriding security objections to this plan.

25X1A9a	6. I advised George Carey that we had no objection from a security standpoint to giving unclassified translation work to do after his retirement for
25X1A9a	physical disability. He said that he would see that got some work to do. I
25X1A9a	sent him letter to me making this request.
